**Rhythmic Music Conservatory (RMC)**  
**Curriculum for the Bachelor Programme in Music**  
**(COMPOSITION)**

**BMus-K**

**Introduction**

This curriculum for the Bachelor of Music programme (Composition) has been compiled pursuant to section 38 of Executive Order no. 1476 of 1 October 2020 on the Academies of Music and the Opera Academy and section 20 of Executive Order no. 1244 of 11 December 2009 on Marking Scales and Other Forms of Assessment at Certain Educational Institutions under the Danish Ministry of Culture (the Assessment Order).

The curriculum shall enter into force on 20 September 2023 and shall apply to all undergraduates who commence their study programmes in 2024 or later.

## **General provisions**

### **1. Title, entrance requirements, admission**

#### **1.1 Title**

The study programme conveys the right to the Danish title bachelor i musik (BMus) (komposition) or bachelor i musik (BMus) (komposition, sangskrivning).

In English, the title is Bachelor of Music (BMus) (Composition) or Bachelor of Music (BMus) (Composition, Songwriting).

#### **1.2 Entrance requirements**

The entrance requirement for the Bachelor study programme is a passed entry examination. The decision on whether to admit an applicant is taken by the Conservatory on the basis of a concrete assessment of the applicant's abilities and skills. The requirements of the music profession are also taken into consideration in the admission process.

#### **1.3 Rules for admission**

Application for admission must be made online by the appointed digital application platform.

The Conservatory lays down detailed rules on the form and content of the admission procedure.

Within these rules, the Conservatory lays down further detailed rules on the form and content of the entry examination.

Information on the form and content of the entry examination is available at the Conservatory's website.

### **2. Aims and learning outcomes**

#### **2.1 Programme aims**

The Bachelor programme in Composition qualifies the student for the occupation of composer or songwriter within contemporary rhythmic music, and for contributing artistically and pedagogically in relevant collaborations with professionals and non-professionals. The Bachelor programme is an independent, rounded-off study programme that provides students with a foundation to pursue further studies at Master's level.

#### **2.2 Programme learning outcomes**

Pursuant to the applicable Danish qualifications framework for programmes of higher education, the learning outcomes for the study programme are formulated in three general categories:

- *Knowledge*, which refers to the student's knowledge and understanding;
- *Skills*, which refer to the student's central abilities;
- *Competencies*, which describe the student's personal and independent application of knowledge and skills.

The learning outcomes indicate the student's expected benefit at the conclusion of the learning process, and focus on learning and on each student's learning results, rather than on the intention of a particular teaching or teacher.

At the conclusion of the Bachelor programme, it is expected that the student will have achieved the following learning outcomes at a fundamental level:

### **2.2.1 Skills**

The student must:

- Be capable, as a composer or songwriter, of creating and communicating music and musical experiences borne by an independent artistic expression;
- Be capable of developing and practising arts educational practice;
- Possess skills in composition or songwriting, and other technical skills that develop and support the student's artistic and arts educational practice;
- Be capable of developing, planning, implementing and evaluating artistic and arts educational projects, both alone and in collaboration with others;
- Be able to assess artistic, communicative and arts educational challenges and to substantiate and select qualified, creative expressions and solutions;
- Be able to place one's own artistic practice in a national and international context;
- Be capable of communicating reflections on artistic and arts educational processes and results to both professionals and non-professionals;
- Be able to apply and relate knowledge of methods and practices in artistic development work in own, artistic practice;
- Be able to apply and relate insight into art and cultural issues and conditions of the musical life, related to one's own professional practice;
- Possess skills in creating and further developing one's employment.

### **2.2.2 Knowledge**

The student must:

- Possess knowledge of methods and practices, related to artistic development work;
- Possess the ability to reflect on both artistic and arts educational processes and results;
- Possess insight into theory, practice and methods in composition and related elements and structures;
- Possess insight into theory, practice and methods within music education;
- Possess insight into art and culture related matters, both in the present as well as historically in relation to music;
- Possess insight into current conditions of professional work;
- Possess knowledge of approaches to translating ideas and possibilities into value.

### **2.2.3 Competencies**

The student must:

- Be able to handle complex and development-oriented situations in educational or work contexts;
- Be able to independently engage in professional and interdisciplinary collaborations and networks;
- Be capable of identifying one's own learning needs and independently acquiring new knowledge and skills.

**3. Structure and subject areas**

**3.1 Structure, subjects, projects etc.**

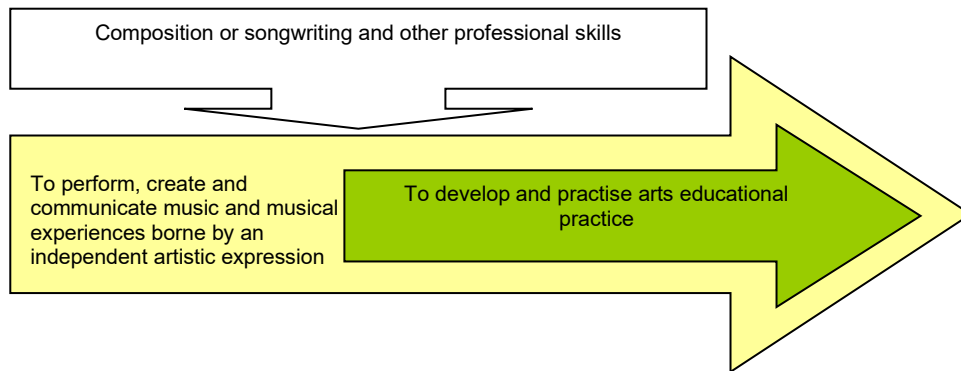

In its structure, the primary focus of the study programme is to enable the student to develop as a composer or a songwriter (yellow arrow).

The student will moreover acquire a number of basic educational qualifications on an artistic foundation (green arrow).

Central to the programme are the programme’s main subjects, Artistic Development Work and Music Education, which are supported by artistic and didactic projects.

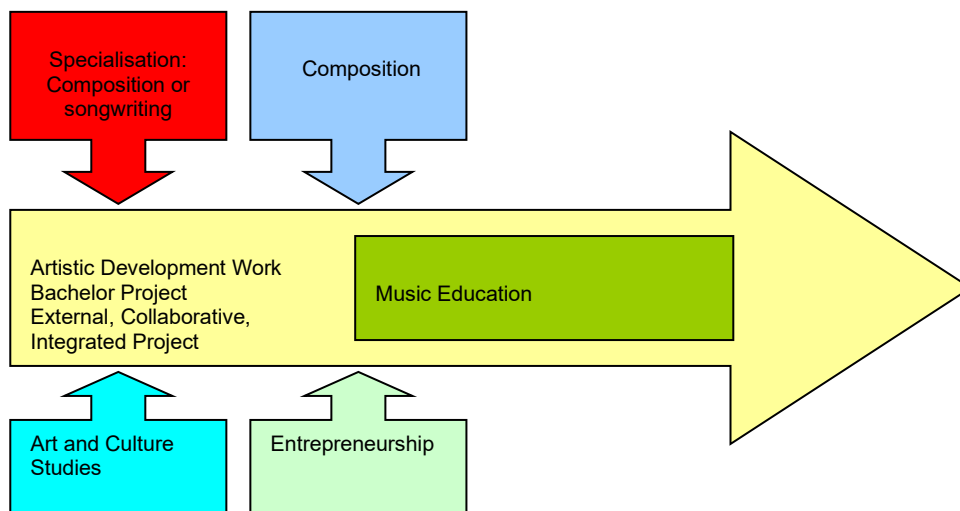

The other educational activities of the programme (white arrow) are directed at developing and supporting the student’s artistic and arts educational practice.

### 3.3 Course registration

#### 3.3.1

The programme is organised in a progressive academic sequence, and each student is automatically registered for courses in accordance with the programme curriculum.

#### 3.3.2

In special cases, the Conservatory may permit students to take courses and examinations corresponding to up to 30 ECTS in a Masters programme.

### 3.4 Prerequisites

Any special prerequisites will be set out in the course plan for the particular subject or project.

### 3.5 Organisation of the teaching

The teaching is mainly provided within a particular year group; however, the subjects and projects may also be provided in classes of students drawn from various years and/or study programmes. Before a year of study commences, a *course plan* is compiled for each subject or project. For each subject or project, the course plan contains information on its organisation, credits, premises and equipment, and class composition. In subjects where assessment is based on attendance at classes, etc., the course plan will include specific requirements towards assignment submissions and/or presentations. The course plan is approved by the Principal, and may be viewed on the Conservatory's intranet at the start of the semester.

## **4. Assessment**

### **4.1 Aim**

The aim of assessment is to evaluate whether the student's qualifications comply with the programme's learning outcomes.

### **4.2 Rules for assessment**

At Rhythmic Music Conservatory (RMC), assessment of the student's qualifications can take place in three ways:

- A. Assessment on the basis of examinations at which the student's proficiency is assessed by teachers, possibly supplemented by internal and/or external examiners. The assessment awarded is a grade from the seven-point scale, possibly supplemented by a written statement, or the assessment Approved/Not approved.
- B. Assessment on the basis of a submitted assignment, where the student's proficiency is assessed by teachers, possibly supplemented by internal and/or external examiners. The assessment awarded is a grade from the seven-point scale, or the assessment Approved/Not approved.
- C. Assessment on the basis of the student's active subject-specific participation in the course. The assessment awarded is Approved/Not Approved.

### **4.3 Other provisions**

All subjects must be passed before a diploma can be issued for a successfully completed study programme.

Students who depart the study programme without completing it are entitled to documentation indicating in ECTS points the parts of the study programme that have been passed.

The programme is organised in a progressive sequence, and each student is automatically registered for assessment in accordance with the student's location in the study programme.

In the process of the composition of examination panels, it must in the planning be ensured that all students at the same assessment in the same subject are dealt with equally in terms of the participation of their own teacher in the examination panel.

For information on other rules governing assessment through examinations, class attendance, etc., please see the Conservatory's intranet.

### **4.4 First-year assessment**

The Conservatory will automatically register the student for the first-year assessment prior to the end of the second semester after commencing the programme. In order to continue the Bachelor programme, the student must pass the first-year assessment before the end of the fourth semester. The Conservatory may grant exemptions from this provision under special circumstances.

In the Bachelor programme, the first-year assessment is held at the end of the second semester in the subject Artistic Development Work (ADW).

#### **4.6 Calculation of standard pages**

Where subject descriptions refer to the size of the syllabus or written assignments, the pages referred to are in all cases standard pages of 2,400 characters (including spaces). The front cover, table of contents, pictures/graphs, bibliography and appendices do not count towards the size of the written assignments. Written assignments may deviate from the specified number of pages by at most +/- 10%.

### **5. Other provisions**

#### **5.1 Language**

The language of instruction is usually Danish, but teachers may provide teaching in English to individuals or small groups as necessary.

RMC also offers selected courses in English. The course plan will state the language in which each of the courses is taught.

Non-Danish-speaking students may choose to write their assignments or take their examinations in one of the other Scandinavian languages, or in English.

#### **5.2 Rules for internship**

Any internship elements in the study programme are described in the subject descriptions and course plans for the subjects.

#### **5.3 Rules for credit transfer**

##### **5.3.1 Equivalence**

Approved programme elements taken at an academy of music that offers a study programme under the Education Order are equivalent to corresponding programme elements at other academies that offer the same programme of study.

##### **5.3.2 Credit agreement**

Credit for programme elements may be obtained under the academies' joint credit agreement.

##### **5.3.3 Other credit**

Study programme elements passed as part of another non-completed Danish or foreign course of higher education may substitute for study programme elements covered by the Education Order, subject to the decision of the Conservatory in each individual instance, or in accordance with rules laid down by the Conservatory.

#### **5.4 Disciplinary measures**

Students at the Rhythmic Music Conservatory are subject to the Conservatory's rules of conduct. Students are required to be familiar with and keep themselves informed of the rules. The rules of conduct may be viewed on the Conservatory's intranet.

#### **5.5 Attendance**

Attendance is compulsory at tuition and related activities at the Conservatory. The Conservatory shall lay down specific regulations for procedures and sanctions towards students who fail to observe the Conservatory's rules for attendance. The rules for attendance may be viewed on the Conservatory's intranet.

#### **5.6 Evaluation**

The study programme is subject to continuous evaluation through systematic evaluation procedures. The Conservatory shall lay down the specific procedures for the evaluations.

### **5.7 Exemptions**

The Conservatory may grant exemptions from any rules in the curriculum that are determined solely by the Conservatory.

## 6. Subject descriptions

### Subject description: Artistic Development Work

Artistic development work is the work that a composer or songwriter performs when creating music and music experiences. For a composer or songwriter, artistic development work consists of the creation of artistic works, through development of ideas and methods, composition, songwriting, lyrics writing, arrangement, orchestration, programming, production, etc. It also includes reflection on the artistic process, context and result. The subject of Artistic Development Work takes its starting-point in the artist as project owner and as a partner and comprises the central element of the programme, in which the student, in a process and product-oriented practice, develops an independent artistic expression as a composer or songwriter.

**Subject description: Bachelor Project**

For the composer or songwriter, it is of crucial importance to possess knowledge and skills in independent project work.

In the Bachelor Project, the student develops and carries out an extensive project within the field of the main subject Artistic Development Work.

In this work, students apply and utilise their overall professional skills, knowledge and competencies. Students are thus given an opportunity to give their Bachelor study programmes an individual profile, and the project can thereby serve as an indicator in relation to the student's future career and educational choices.
